Welcome to our annual report!

2014 has been an amazing year, full of excitement, hard work, endeavors, new projects and challenges. We wish we could tell you everything we have done, everything we have learnt, everything we have accomplished, but, as this is not possible, here you can see some of the highlights.

Hope you enjoy it!

-The Rain Tree team

2014

HIGHLIGHTS

SMALL ideas help communities THRIVE

A NEW FACE FOR YOUR OLD EYE GLASSES

Thanks to all our friends, supporters and donors which are dedicated to improve people's lives. Through your great support we have been able to supply again over 400 second hand eye glasses to villages and people without access or the lack of money to get new eye glasses. Our eyes are one of the most important parts of our body and it's priceless to give people a better vision!

KITCHEN RENOVATION AT MAE HAE CHILDREN'S HOME

Not only we have renovated the whole kitchen, but we have got new plates, pots, knives, spoons and much more things which were needed for the house parents and the children. Even a gas rice cooker was on the list, which makes the daily cooking to feed the 60 children an easier task as well as a more efficient and environment friendly way to cook. Thanks again to all the friends and donors involved in this project!

Community Help

We are glad to help more children to get a better education. In a small village in the Mae Hong Son district of northern Thailand was a little children home established by the community. We have been helping them since it's a great initiative from the local community that we really love to support. With only a little help we can do so much for the underprivileged

EDUCATION is the most powerful weapon we can use to
CHANGE THE WORLD

English for Children

Since we started our English teaching program in the mountain schools in northern Thailand our students have improved their grades in an average of 40%!

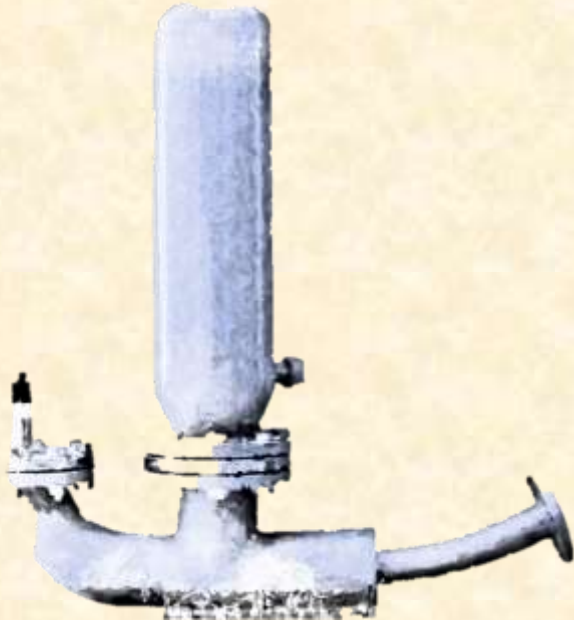

Thank you to all the volunteer English teachers that have helped us achieve this, without your effort this wouldn't have been possible.

Foster Children Visit

On our last foster children visit the children gave us a lot of drawings and little presents for their foster parents. The foster children sponsorship program make us able to provide education, food, clothing and health care to over 100 children in Northern Thailand. The goal of our foster program is to support the families and children to attend school, providing a better nutrition and clothing as well as access to health care and medicine instead of taking the children out of their existing environment and family to a hostel or dorm. Hopefully we will be able to help many more children in need in 2015.

Water supply for a village

In February we finished another water supply system for a remote village in the mountains of northern Thailand. We used an hydraulic ram pump which operates without outside power like gasoline or electricity. All the villagers helped and we could install the water tanks, pump and pipelines within 3 days!

As the dry season approaches, most villages in these areas fear the lack of water for their basic needs. With this pump they can now be sure to have enough water for drinking, showering, washing and toilet.

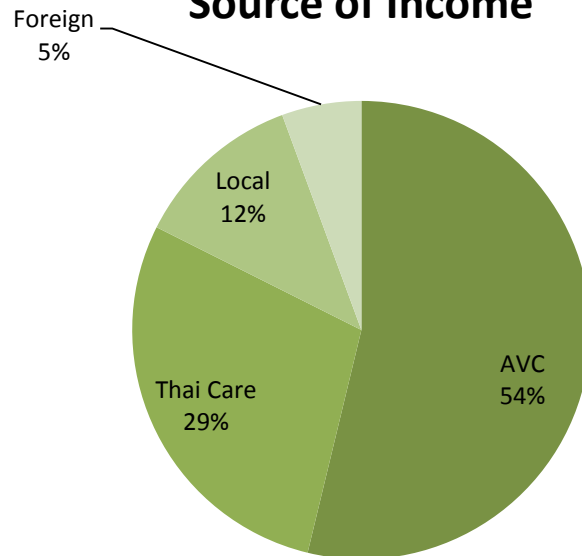

More than 100 families received
safe and clean drinking water in
2014

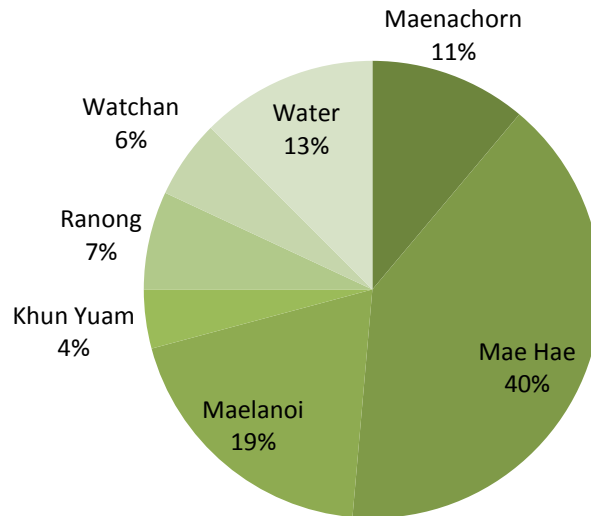

Thanks to all donors, friends, organizations
and companies for your great help and
support. We have successfully installed more
than 100 BioSand Filters this year. These
filters will last for 20 years, don't need any
additional energy source, having absolutely
no running and maintenance costs and are
easy to use for everybody.

As water borne diseases are still a big issue
in Thailand, we focus on educating people
and communities as well as to supply
drinking water filters. But we wouldn't be
able to supply all that without the help and
dedication of so many people, friends,
companies, clubs and organization which
generously help us through their donations.

Source of Income

Expenditure by Projects

STATEMENT OF OPERATIONS

Balance sheet as at 31st December 2014

ASSETS

Non- Current Assets

Plant and equipment	439,075.18
Other non-current assets	30,000.00
Total Non-Current Assets	469,075.18

Tax	562.70
Total Expenditure	7,659,502.27

Surplus/(deficit)	136,932.16
--------------------------	-------------------

Make a donation

Many of our projects need an ongoing support from a strong partner in order to be continued and developed. We are also pleased about donations in kind, like second hand toys, clothes, blankets, etc. We need many things, but unfortunately we cannot provide for all needs.

If you chose a onetime donation or monthly giving, you can be confident that 100% of every Baht, Euro or Dollar donated supports Rain Tree Foundation programs.
