

Foster Children Program

Sponsor a Foster Child !

The children of our Foster Program are particularly depended on a monthly sponsors support. The sponsored families are in difficult situations, which make it impossible for them to rise up and become healthy and nourished people. You can sponsor a child living at one of our projects for Euro €25. - per month. We ensure you that 100 % of your financial help will be used for the children needs.

Your monthly help will allow us to provide the child with:

- healthy food, accommodation, a safe environment, a school uniform,
- a boy scout uniform, school books, education, medical and dental care,
- birthday party, summer camp.

Sponsoring a child means giving a powerful, quick and sustainable help. For children it means a real chance for a better future and a positive change in their lives.

How you can become a Foster Parent ?

Becoming a Foster Parent is easy:

Get involved and we will introduce you to the children with information's about their life and the problems they face as well as a picture. Then you have just to confirm and continue your monthly support.

We conduct the Foster Program in close collaboration with our partner organization Thai Care e.V. in Germany. They are managing the whole process and serve the child's godparents. The Rain Tree Foundation takes care for the children's in Thailand to care that your support will be well received and purposeful used.

If you are interested in sponsoring a child, you decided to be a Foster Parent ?

Please contact us or Thai Care e.V.

Thank you for your help!
